Pump Details Screen

Tank Settings Screen

Pump Overview Screen

Pump Analysis Screen

EASY TO PROGRAM

Takes minutes to configure rather than hours or days, using the intuitive interface via swipe touch screen similar to smart phone.

MODULAR APPROACH

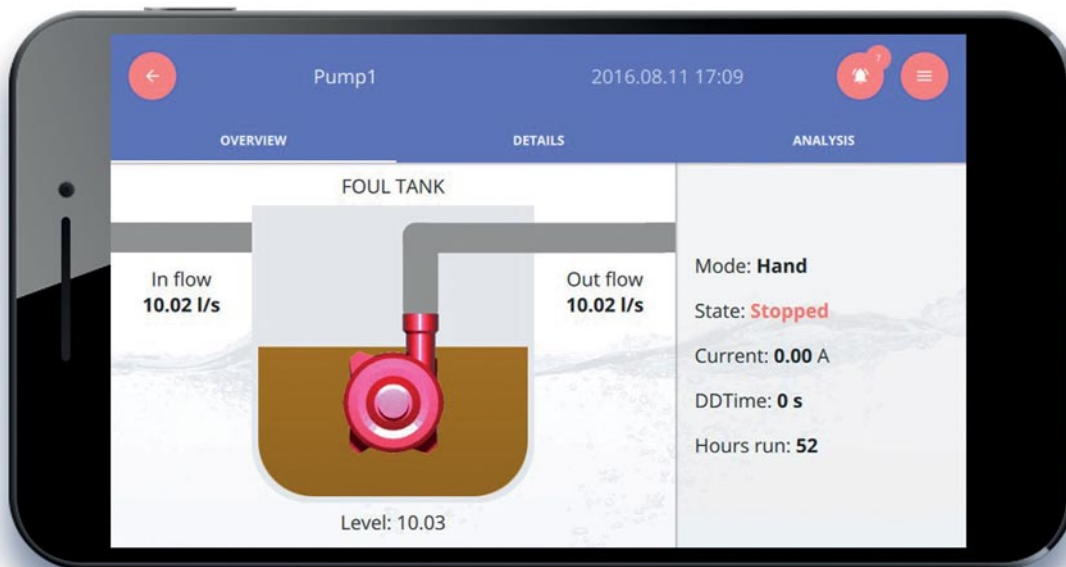

No re-design of panels –easy to add or remove equipment.

REDUCE FAILURE RISK

Each component redundantly supported by another.

SIMPLIFIED DATA TRENDS

Provides trending data showing how well or poorly equipment is functioning.

SMART PHONE CONTROL OPTION!

DERAGGER PRO[™]
interfaces with the:

DERAGGER+

- Proven anti-ragging technology
- Voltage / Current / Phase motor protection

POWERMONITOR[™]

- Data logger for 20+ years.
- Power quality analysis.

And remember the **DERAGGER PRO**[™] incorporates all of the below:

- 10" - 32" 'Gorilla Glass' touchscreen.
- No PLC or integrator required.
- 'Plug & play' out of the box.
- No software key, annual fees, or license required.
- Controls up to 16 individual devices.
